Starlines II Residential Retreat Testimonials

Linda Rogers
Life changing and consciousness changing!

Buff Etheridge
Monroe is where magic happens. My absolute favorite place in the world. New friends are a given in this very safe, exciting world Bob Monroe built.

Anonymous
My spiritual growth during STARLINES I & II felt exponential, as I experienced first hand the cosmic consciousness, identifying with our galaxy and beyond. I made contact with my I-There and I-There Cluster and was open to perceive whatever was essential to me. I got the impression that the planets/galaxies enjoyed mixing their energies with us in a cosmic 'dance;' we are like bees, key 'pollinators' in the evolution of our universe. I credit TMI programs for my decision to pursue a degree in trans-personal studies, to further my formal education in the consciousness field."
